

MOOSE CREEK RED ANGUS

20TH ANNUAL BULL SALE

3PM • APRIL 14, 2014

WELCOME TO MOOSE CREEK RED ANGUS 20TH ANNUAL • BULL SALE

Welcome to our yearling bull sale. We thank you for your interest and taking the time to read through our sale book as this is always a busy time of year for cattle producers.

A lot has happened since I wrote the last forward for the sale. We all survived a winter that would never go away. During that, we worked through Kylie's health issues and all the challenges involved. We were excited for the spring, happy with moisture and sunshine and then totally decimated by hail in July. It never happens at a good time but we lost all of our hay and silage and 85% of our pasture. With the help of neighbors and friends, we were able to gather enough feed and/or send cows out to be cared for. The year ended on a high note with a great fall run and 2014 started magically with prices we have only dreamt of. (We all deserved those years ago, great to hear someone listened finally!)

Our cowherd is a walking example of what we preach. Breeding over 800 females this spring, the discipline breeding, feeding and management practices our customers use, are the same we use. No females are babied, calving must be unsupervised and she needs to bring in a marketable calf by fall or she is replaced. This type of management coupled with cost saving feeding strategies definitely sorts the good from the bad.

Our February Open House sale was a huge success. We were able to market our held over 2 Year Olds to a large crowd of commercial stockman from Saskatchewan, Manitoba and Ontario. The one on one time with the customers is something that we really miss and find it a rewarding experience at the Open House sale.

Please accept this as your invitation to the sale. We would love to host you and show you our brand of hospitality.

Kenny, Donna, Candace & Darren

p.s. The steaks will be sizzling and ready for you!

A large thank you goes out to the hundreds of cattlemen and women that we have supplied bulls to in our 40-plus-year history. It has been an honour to call so many of you friends and to have your loyal support. Many have been with us for more than 25 years while spanning three different generations of bull buyers.

We are certainly blessed to have supporters like you.

CONDITIONS & GUARANTEES: All entries sell with a responsible breeder's guarantee of satisfaction. In the unlikely event of any dispute whatever, regular TERMS & CONDITIONS shall apply in accordance with the Canadian Angus Association Code of Ethics.

ALL CATTLE ARE SOLD subject to tests as required for export under Regulations of the Health of Animals Branch, Department of Agriculture for Canada. Export health chart and brokerage charges are the responsibility of the purchaser.

TERMS OF PAYMENT: Cash or cheque payable to the Clerk of Sale on Sale Day. U.S. Funds will be accepted at the current Rate of Exchange on sale day.

INSURANCE: Ownership risk to Purchaser commences when Auctioneer's hammer falls. Full Mortality Insurance is available sale day. Cattle returning to Moose Creek Red Angus after the sale must be insured.

HOLDING & SHIPPING: Approximately one week is required for export transfers and other documents to be processed. Export animals will be held at the Sale location at no charge and under excellent care. Joint export shipping arrangements to obtain minimal shipping cost will gladly be made if instructions to that effect are provided to Clerk of Sale at time of settlements.

TRUCKING: Free trucking will be available to the Prairie Provinces at the purchaser's convenience before May 1, 2014. Delivery after May 1, 2014 will be at a mutually agreed upon time

for both parties. Most deliveries will be to your yard but some may be to central locations due to load size and time. If the truck is headed past your yard, expect your bull to be on the load. All customers exercising the free delivery must have the bulls insured. No exceptions.

HAUL YOUR OWN: Bring your trailer sale day and receive a \$100 discount per bull.

OWNERS: Reserve the right to withhold from export shipment animals for whom Buyer or Buyer's agent have not made arrangements for payment in full, or other satisfactory arrangements, prior to time of export departure.

ALL PERSONS who attend the Sale do so at their own risk, and the Owners and Sale Staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

I kept this bull til last. His full brother was our high seller last year, and one of the most talked about bulls that sold last Spring. When your mother is Jumbo's older sister, you walk with swagger.

You only live once, but if you do it right, once is enough.

MOOSE CREEK RED ANGUS TWENTIETH ANNUAL BULL SALE

Take advantage of our subsidized insurance. It is the simplest and most straightforward policy in the business. Very affordable and you don't need a law degree to read it either.

This is a video sale. No bulls will physically enter the sale barn. A video of each bull will be playing at the time of sale. Viewing of the bulls can take place anytime prior to sale day. Give yourself time sale morning to evaluate the offering prior to the sale time. The experience of choosing your bull in the ring changes drastically at a video sale.

Lot 4: Szarka 26A

Lot 8: Riptide 84A

Lot 11: Denver 70A

Lot 25: Tremor 36A

BULL DEVELOPMENT

We pride ourselves in providing a sound, well managed and durable sale offering. This group is the result of more than 40 years of Red Angus breeding and development decisions. Our role as a seedstock producer is not taken lightly; we spend countless hours researching, evaluating and measuring growth, gain and fertility in our herd. These decisions ultimately affect your bottom line. It's important that we get it right, for your operation and ours.

As the old saying goes – feeding cattle is half science, half art and half luck. We continue to work directly with our livestock nutritionist to develop our bulls on less grain and more forage. The benefits of a “cooler” ration have been documented hundreds of times but rarely acted on. We are not afraid to tell you what our bulls eat. A maximum of 9.1 lbs/day rolled corn, 1.85 lbs/day custom bull supplement, 0.95 lbs/day DDG and the balance is wheat silage and alfalfa hay. This ration targets a 3.2 lbs/day gain; very similar to what the bulls were gaining prior to weaning. With all of the forage in their ration and the large paddock to run in, the bulls are athletic and ready for spring turn out.

A strong vaccination plan is very important to us as well. All of the calves born here receive SomnuStar pH at birth and then are vaccinated with SomnuStar pH, StarVac 4 and Blackleg at branding and again at weaning. The cowherd is vaccinated prior to breeding with a modified live strain to control IBR, BVD, PI3 and Iteme. To our knowledge, we are the first Red Angus herd to PI test our entire cowherd and keep that status current. We have been a PI BVD free herd since 2004, the year we started testing.

The cowherd is run just as our customers do – bale graze, corn graze, graze stockpile native range. We are currently in the WBDC cost of production study, ranking our operation against some of the top commercial cow/calf operations in the province. It is very important to us to be able to raise our herd in a low cost environment, the kind that our customers are moving towards. We certainly aren't the cheapest cost of production but I am proud to say we are holding our own, even with the added costs of maintaining a registered herd.

Finally, all of these bulls were bred, born and raised here. The guy opening the trailer door in your yard is the same guy that bred this bull to that cow, tagged the calf and ran the feedwagon to feed him. We are in the business of selling bulls – poundmakers, momma cow makers or non trouble makers – 365 days of the year. If you phone to ask about a certain bull, rest assured, we know all there is to know about him. Because it's important we get it right, for your operation and ours.

REFFEREN

MALCOLM

1585534

There are very few things that I would change about Malcolm. His 2 year old mother raised him naturally to nearly 900lbs at weaning. He adds length and feed conversion all while leaving them moderate at birth and heavy in the fall.

Owned with Kevin Brigden

OLYMPIAN

1234015

Olympian may not still be seeing natural service here; however his influence has never been larger in our program. If you see Olympian in the pedigree, it is in your best interest to compete to own him. The old range boss improved our cattle more than any bull we have used to date.

Owned with John Orr

DESIGNER

1559039

This cherry red powerhouse adds muscle, appetite and a herd bull look to all of his offspring. He can stand alone on his physical presence but being mothered by Kodiak's sister and having some of the breed top donors in his pedigree, the sky is the limit. He is deep bodied, moderate and has a ton of hair. We are expecting nearly 80 calves naturally in 2014.

SRIRACHA

1709967

We used Sriracha in the commercial herd for three seasons. Every weaning, they were the biggest, stoutest and most complete calves of the group. After investigating his pedigree, it came as no surprise. His donor mother, 25B, also raised Admiral, Slick, Numbers, Rembrandt and a whole host of others. Sriracha saw heavy service this past year and we are awaiting 50+ calves this spring.

CE Sires

STILLWATER

1561505

Olympian's greatest breeding son. His dam and grand dams are at the top of our program. We are just realizing his versatility. Low birth, calving ease and more than enough performance; he will improve udders and milk flow in just one cross.

Owned with the Wegner Family

UNBELIEVABLE

1450930

"UB" is a breeding giant. His sons and daughters are backing that claim. Look for "UB" to improve structure and ease of fleshing. After seeing his first daughters wean their calves, the maternal upside is limitless

RALLY

1405619

Rally started off as our high seller back in '08 to Boyd Lines and in hot pursuit was Paul, Mac, Conrad and Nathan. Since then he has been the backbone of Boyd's operation. We decided to use him AI after seeing how well he turned out for Boyd. Rally is sound as a pound and adds those too. He's a bull we are proud to have our brand on.

GANGSTER

1579035

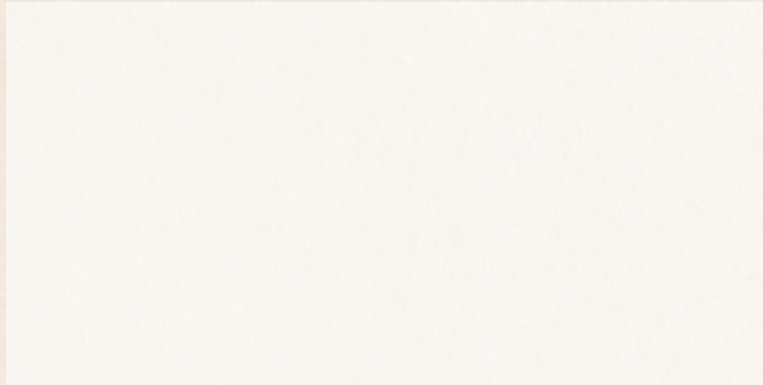

Gangster's value to our program was very evident with how well his first sons were received. He adds style and a classy, old school Angus look while maintaining low birth and tremendous calving ease.

Moose Creek Red Angus

Glenn and Darren Ippolito
Box 190, Kisbey, SK S0C 1L0

The best time to plant a tree was 20 years ago. The second best time is now.

WELCOME TO MOOSE CREEK RED ANGUS

Welcome to Moose Creek Red Angus. Established in 1972, we are one of Canada's pioneer breeders. Situated in the south east corner of Saskatchewan, our cattle are raised on the native range south of the Moose Mountains.

Our program is committed to producing sound, fertile, easy keeping cattle designed for the commercial cowman.

Annually, we host an on farm yearling bull sale mid-June, a private treaty open house 2-year-old bull sale early February, and sell replacement quality females from our large commercial herd each fall.
